J.R Nisperos Mohan

📞 (416) 700-3890 | ✉ jr.mohan753@gmail.com | 📍 Mississauga, Canada

SKILLS

Languages : JavaScript, Python, HTML/CSS, SQL, NoSQL, C++
Frameworks : ReactJS, Next.js, Node.JS, Tailwind, Bootstrap
Tools : Jira, GitHub, BitBucket, Docker, Oracle SQL
Databases : PostgreSQL, MySQL, MongoDB

EXPERIENCE

Frontend Developer   Sep. 2022 – Sep. 2023
Andie (alwaysandie)   Toronto, ON

- Designed and developed Andie's **company website and main catering application** using **React** and **Tailwind**, which collected **real time data** from restaurant partners such as available seating and current deals
- **Led various projects** pertaining to design, such as creating multiple components on the companies main site, and the **payment flow** UI for our main catering app, which allowed for users to pay restaurants using **Stripe**
- Developed a **messaging system** which received **API calls** to display messages in a UI similar to WhatsApp, which worked real time by refreshing React components
- Worked in **Agile** teams ranging from 2 to 12 people to achieve company milestones
- Communicated with multiple departments to meet demands, such as developing an application that our operations team could use to track what restaurants they have to/ had consulted, log their shifts, keep track of emails and keep track of partnered restaurant information
- **Received return offer** to keep developing and maintaining the front-end for the company during studies

PROJECTS

Dynamic React / Next.js Applications

- Designed multiple websites (both mobile and desktop compatible) as website templates for future freelance clients
- Developed a professional portfolio website in **Node.js** to display said projects
- Mentored two students in Next.js, React and Tailwind, leading to their contract employment under Andie

Piezoelectric Drumhead

- Built an Arduino script that changes the colour of LEDs inside of a drumhead when mechanical pressure is applied
- 4,000+ views on YouTube with circuit design and code snippets

React Replicas

- Replicated 20+ designs on Dribbble and Figma from scratch using Tailwind and React to improve front-end development skills
- Replicas used for in-house applications featured at Andie

EDUCATION

Computer Programming   Sep. 2021 – Aug. 2023
Seneca Polytechnic   Toronto, ON

- **Coursework**: Web Development, Databases, React, Python, Algorithms, CSS, JavaScript, C++
- **Graduated With**: 4.0 GPA and High Honours
